Nourish has supported the advancement of our school food project proposal with great advice, partnership, support and expertise, while offering an in depth understanding on the NS landscape for school food that strengthens our project.

We feel incredibly supported by Nourish. As newcomers to the local food scene a couple of years ago, the learning curve was steep, but Nourish helped us get started and build our programming into something with lasting impact. Thank you!

I want to thank Nourish for all of the support and help they've provided to the school breakfast program and partnering to provide healthy food workshops.
